

Frontend Assessment-1

Problem Statement

Create a responsive webpage with the following design

Guidelines

1. The design must be pixel perfect.
2. Use either flexbox OR CSS Grid for layouting the webpage. (No mixed layouts)
3. For mobile view,
 - a. The navbar must be replaced with the hamburger menu,
 - b. onHover : The nav options should open in a dropdown.
 - c. The dropdown design is open to your imagination. It must strictly follow the theme of the webpage.
4. Font-Family: [Google Font Poppins](#)
5. Font-Size: Use approximate font-sizes based on your judgment
6. Additional assets added in moodle.
